

I am concerned about the issue of ownership of broadcast and newspapers in the local community. I believe the concentration of ownership removes independent voices from our airwaves. An example is the censoring of the music of the Dixie Chicks when they made a comment about the President. It was not liked by the media ownership and they stopped playing the music on ALL their stations. You are there to maintain diverse options not allow this kind of power. Further concernation will further limit this diversity. I am one person without a lot of money but I have opinions. Protect my rights.
